 \$17.95

**mini morsels**  
 Finger foods are undeniably fun to devour, giggle at and maneuver through crowds with. They're easy to hold and satisfying to nibble on. While we loved the cupcake trend, mini cakes pull at our heartstrings even harder. They're adorable and perfectly detailed without a wisp of worry about it's what we've always dreamed of: smart, cute, beautiful food in one small delicious morsel.
